I rarely get chances of watching smartphones and I always want to make sure I max them out. In this case, I wanted to make sure I had a chance to try the LG Stylo 3, so I lent it to my teenage daughter. I thought that if someone could use a smartphone, it would be that crowd. For those who don't know about the LG Stylo series, this is quite something like it comes with its own stylus. You don't need to use the stylus to use Stylo 3, but I have to admit that it's really convenient. In fact, when you snatch the stylus from this particular smartphone, you will discover a world of stylus activities like Pop Memo, Capture, Pop Scanner, Fast Memo and Tasks. I was very surprised that when I went to write a memo with this, I was able to print with good calligraphy. Most of the time, when I use a stylus to write on my touch screen, I get what you get when you sign your signature after a slide of your credit card. I have to admit, I really like that for the phone. There is also this bonus of having a fingerprint sensor on the other side, which also functions as a power button. I don't know how unique that is for most new smartphones, but usually everything comes with a fingerprint scanner. All this, and the camera is quite something. If you want to get into this, it's available in rose gold at Cricket Wireless for \$169.99. It has no annual contracts and is available on the nationwide 4G LTE network. Screen resolution 1280 x 720 pixel Battery capacity 3200 mAh Processor Qualcomm® Snapdragon™ 425 MSM8917 1.4 GHz quad-core storage processor 16GB ROM (use up to 8.7GB) Other Android features™ 7.0 Nu operating system, 5 MP front-facing camera with Gesture Shot and Selfie Light, 4G LTE Connection, Mobile Hotspot Premium Stylus with advanced UX Da Bright and Bright 5.7 HD Display Yes Available Colors Titan Gray, Rose Gold Customized Keyboard Adjust the Keyboard Height/Location and Keyboard Position for One-Handed Access Customizable Home Touch Buttons™ includes 0 Home Screen Convenient to access all apps from pen Pop 2.0 home screen Choose which app shortcuts you want to use your stylus with Pen Keeper Prevents stylus from inappropriateness, Featuring a pop-up message when the phone is detected as being in motion, when the stylus bay is an empty pop scanner after capturing the image, trace the object so that you can bring it front and center - and right side up Pop Memo Fast Notes app that you can set to activate immediately when you remove the stylus screen-off Memo Write memo while the screen is off Capture™ Optioning a paper style, pen size and color, add text with a PC-like tool bar, and more Saver battery to minimize battery consumption by effectively managing the UX Knock Code® Tap a 6-to-8-point template to access the Screen Clip Tray® Copy multiple items and paste them on a clipboard that pops up at the bottom of the screen, creating a collection of information from which you can save or send Knock On® Double tap the screen to put the phone to sleep/wake it up without picking it up or tapping on the Power/Lock Mini View Shrink screen for easy one-handed use of Smart Lock Keep the phone unlocked, When you have a trusted Bluetooth device® connected, a device if it is in a familiar place, a trusted voice or person is detected, or you carry it with you® Overlay up to two windows with adjustable size and transparency Multi-Window Use two apps simultaneously on the split screen Notification Light Alert for incoming calls, missed calls and messages, and more not bother to turn off all notifications Except selected, such as calls and event reminders, Lock Password Content/Pattern Protect Your Memos and Images in Fast Memo and Gallery Multilingual Support up to 15 EasyHome languages™ Show dialer and other commonly used features right on the home screen for quick and easy access - Some owner content may still be available to the user that allows content. 5MP HDR front-facing camera with Auto Shot Yes Front Resolution Camera Resolution Up to 2560 x 1920 Pixel Auto Shot Take Selfies automatically using Facial Recognition Gesture Shot Take a selfie with a simple hand gesture Selfie Light Screen will illuminate the soft light around the photo preview for a well-lit selfie gesture Interval shot to make twice the selfie in sequence Image Editor Add filters, Customize the brightness, and more to your photos (by Google Photos) Beauty Shot Adjustable Settings softens the facial features of the 13MP Rear Facing HDR Autofocus Camera with Flash Yes Rear Resolution Camera up to 4160 x 3120 pixels Fast access social platforms instantly after taking photos and videos HDR (High Dynamic Range) Set HDR (High Dynamic Range) on, off, or automatically blasting Shot To make multiple shots Multiple shutter options Tap the shutter, use your voice, or press the volume key to make a photo switch between the rear and front cameras with the finger Swipe Yes effect of the movie Re-set filter effects, to give pictures of the film as the look and feel of front-facing and back recording Of the Yes Video Recording Resolution up to 1920 x 1080 (FHD) while allowing the playback of 30FPS video playback to 1080P video playback on 30 FPS Pause and resumption of video pauses and start recording mode for one continuous video file. Live Shot Take more shots while recording a self-timer video Select to take a picture/video 3 or 10 seconds after pressing the shutter/record button Tag location information in photos and video Steady recording Reduce blur in video Fast Video Editor Edit recorded movies - Available only on the front camera.
